Details

Comments: Use this concept to specify whether the Registration Self Service application should require students to enroll in all sections in a Block. Enter a value of Y or N in the External Code field.

- Enter Y in the External Code field if students must register in all sections within a block. A fatal error on one or more sections will prevent enrollment in all sections within the block.
- Enter N in the External Code field if students are permitted to register for any sections within a block for which there are no fatal errors.

**Successful** registration! Note that web **Register for Classes**

The screenshot shows a web registration interface. At the top, there is a navigation bar with a gear icon, a user icon labeled "Tester, Student", and a yellow box with the number "4". Below the navigation bar, there are tabs for "Plans", "Blocks", and "Schedule and Options". The "Blocks" tab is selected. A red box highlights the text "your current block - (Business Focus)". Below this, there is a table with columns "Details", "Hours", and "CRN". The table contains three rows of data:

Details	Hours	CRN
ARTS 1100, B04	3	83213
ENGL 1101, L80	3	80206
GEOG 1101, B14	3	83211

Overlaid on the interface is a red error message box with the following text:

- CRN: 83222 Closed Section -X
- CRN: 83212 Closed Section -X
- CRN: 81982 Closed Section
- All sections required for block - registration attempt unsuccessful due to error(s).

An "Ok" button is visible in the error message box. A red arrow points from the error message box to a text box at the bottom of the image.

Registration is prevented for the whole Learning Community if there are errors on any section
